## LONG BIO

RESONATE IN THE FREQUENCY OF DENEAN  
MUSIC THAT COMMUNES WITH SPIRIT AND AWAKENS THE HEART

*(insert Gaia's Prayer album cover here)*

A picture does paint a thousand words; it is true. But this image goes beyond words. The cover of Denean's album, **Gaia's Prayer**, beckons us to strip away all pretense and follow her deep into the sacred mystery of the Earth Mother who shares her heart with us.

“It was a calling I could not ignore. As I sat there upon her back, I could feel her energy moving through me, swirling and spinning. It changed me forever. I knew in that moment that I had become pregnant with the energy of her message and her prayer...Gaia's Prayer.” **Denean**

**Kiara Windrider author of “Ilahinoor: Awakening the Divine**

**Human”** describes **Denean's Gaia's Prayer** release this way: *“Let the veils of separation fall away as Denean weaves together the sounds of humpback whales, the energies of Ilahinoor, and her pristine voice to create spectacular compositions of healing sound. Ilahinoor is a field of galactic light that is moving through the earth now to catalyze our next evolutionary journey. As we embody this frequency of light, we co-create a beautiful new earth with Gaia!”*

The main focus of **Denean's** work is on opening pathways to higher states of awareness through music and sound. A Kentucky native, she is an internationally acclaimed, award-winning recording artist of music with Native and angelic themes. She has albums that have reached gold and platinum in Southeast Asia Markets and has worked for Disney with musical greats Alan Menken and Stephen Schwartz.

As we reflect on the **Gaia's Prayer** image once again, **Denean's** silhouette subtly suggests to us that there is more being told here if you look closely and listen carefully. She quietly whispers to us the story of an earlier time, when after a decade on the Nashville county music scene, she found herself in a life or death crisis of an abusive marriage. Again and again she received the message “...if you don't get out of this situation you will die and you will not be able to do what you came to this planet to do.” Perhaps it was Gaia speaking to her even then. This seemingly impossible circumstance ultimately sparked the genesis of a new life; the path of creating healing music for nurturing the soul with uncompromised devotion to truth.

So with complete abandon, leaving Nashville and leaving a record deal with a country label, **Denean** joined Ethereal Music of Colorado where she released **Fire Prayer, The Weaving, and Thunder**.

In 1998 **Denean** formed her own company. Woo Way Intuitive Healing Arts is a music recording and production company centered around the spiritual

teachings and healing music of Denean. Included in the many releases of Woo Way Intuitive Healing Arts are the re-releases of the earlier Etherean albums. **Gaia's Prayer** is **Denean's** latest release and distributed through Landr. With **Gaia's Prayer**, **Denean** re-united with Mark Derryberry who mastered the album. Mark was the audio engineer from the early days of her first three albums.

With a deep rich history of Native American spiritual practice, which has greatly influenced her music, **Denean** births and sings many songs in the Lakota language.
